

Support Eclipse Education for Dripping Springs!

Be a Sponsor of Eclipse Glasses For Every Student and Teacher in DSISD... Be a Solar Scholar Hero!!

Safety and education is an important part of our eclipse preparations! How can we educate everyone on how to safely view our eclipse and what they can expect on April 8, 2024?

One big thing we are planning is giving a pair of eclipse glasses to each student in the DSISD school system. Included with the glasses will be a card that shares information about the eclipse and how to view it safely. But we cannot do it without your help! Please consider a small investment to help our students be prepared for the excitement and to also help our children be safe!

The glasses we will be distributing are designed to be iconically Dripping Springs — you can see the design at left. They are similar in design to match the giant LIFE-SIZE glasses at Veterans Memorial Park. No company logo will be on these, as these will also be handed out at events and sold at area businesses. We will be distributing more than 8,000 glasses.

We are seeking four Solar Scholar Hero Sponsors, each at \$1,800.

Each Sponsor Receives:

- Name and logo on the official Dripping Springs eclipse website: drippingeclipse.com.
- Name and logo on the educational postcard that will be given out to students with the glasses, showing how to safely watch the eclipse.
- Recognition at the sunBLOCK PARTY on Stage.
- Your name and logo on two thank you social media posts.
- 200 Dripping Springs branded eclipse glasses for you to use on your own, in any way you wish.

Interested?

Fill out the sponsorship form and drop it by City Hall. Questions? Contact Lisa Sullivan at eclipse@cityofdrippingsprings.com for more information!

Eclipse Disclaimer

Sponsorships and the eclipse happen rain or shine. The total solar eclipse is a once-in-a-lifetime event that only happens in the same place about every 300 years. The last time it was in our area was in the 1800s. Because of this, there is no way for us to precisely predict the total number of visitors who will be in Dripping or who will attend the sunBLOCK party. We are basing the numbers on our research of cities of similar size that were in the totality of a solar eclipse in 2017. These cities experienced 3-4 times their population in visitors. By sponsoring or participating you understand that the number of visitors is an estimate and the City of Dripping Springs is not responsible for how many will be in attendance.
